

ANTI-AGING HYDROTHERAPY – A TIME MACHINE FOR YOUR SKIN

Developed with your skin in mind, tiny MicroSilk® microbubbles reach gently into pores, to remove toxins and moisturize the skin.

With 70% more oxygen than regular tap water, MicroSilk® increases the skin's metabolism while promoting skin cell growth and the reduction of fine lines, wrinkles, and scar formation.

MicroSilk® improves overall skin health and naturally evens skin tone and relieves irritation — cleansing, exfoliating, and hydrating the skin.
